MAINTENANCE AND OPERATIONS

It is the policy of the Board of Trustees to provide school facilities and to maintain them in such condition that they will promote health and safety, provide operating economies, protect property values, correct obsolescence, develop community pride, and improve educational opportunities for all students. The Business Services Division will be responsible for the development of procedures which will provide maintenance and grounds services at the highest level consistent with good property management.

Policy adopted: June 26, 1980; July 6, 1999
