

DISTRICT SAFETY PROGRAM

An integral part of the employee work program of the Fullerton Joint Union High School District is a continuing review of the degree of safety in all plant areas and equipment. Therefore, a districtwide safety committee shall be formed and maintained that shall have as its objective to review, analyze, and evaluate all working conditions to be certain that they are safe and healthful to maintain the lowest possible on-the-job accident and injury experience to employees.

Recommendations of the committee will be followed subject to District financial conditions and priorities. Repairs and/or modifications of facilities, equipment, records, and practices shall be made promptly and thoroughly to meet applicable State safety requirements and standards of the California Occupational Safety and Health Act, State Compensation Insurance Fund, the District's liability insurance carrier, and the best educational needs of students.

Policy adopted: September 8, 1970; September 15, 1975; October 2, 1978; July 6, 1999
