

PRIORITY SCHOOL ACCESS

The following procedures are set forth for establishing or altering a priority access policy:

1. Studies regarding new school facilities to be financed in whole or in part by Community Facilities District special taxes shall be made under the direction of the Assistant Superintendent of Business Services when directed to do so by the Superintendent.
2. A priority access policy shall be made with respect to a particular facility financed in whole or in part by community facility district special taxes.
3. Plans for establishing or altering a priority access policy will be prepared by the Assistant Superintendent of Business Services. The Assistant Superintendent of Business Services shall bring landowner, voter, and student concerns to the attention of the administration and Board of Trustees. Evidence regarding projected enrollments, class loads, walking distances, ethnic balance, double sessions, safety factors, or plant facilities may indicate such study is needed.
4. Those plans that have been reviewed in accordance with this procedure and appear most practical shall be presented to the Superintendent. Prior to the public hearing on the formation of the Community Facilities District and the Superintendent making a recommendation to the Board of Trustees, landowners, and voters to be affected by the policy will have an opportunity to participate in informal meetings with the Assistant Superintendent of Business Services.
