

FIRST AID KITS

First aid equipment shall be located in those areas where the safety of pupils might be jeopardized. The location of these kits shall be determined by the principal in cooperation with teachers whose classes offer potential safety hazards.

It shall be the principal's responsibility to insure the maintenance and replenishment of all first aid kits on campus.

A first aid kit shall be maintained and made available to teachers for use on field trips. Education Code Section 32041 requires that the teacher shall have the first aid kit in his possession, or immediately available, while conducting the field trip. It shall be the principal's responsibility to insure the replenishment of the first aid supplies of this traveling first aid kit in accordance with Education Code Sections 32041 and 32043.
