

INTRADISTRICT FESTIVALS OR WORKSHOPS

District festivals or workshops may be held to give the students the opportunity to perform given skills under an evaluative situation. Departments wishing to conduct such an activity shall submit a proposal to Administrative Council for approval. It is recommended that proposals be submitted at least the semester prior to the planned event and preferably by the beginning of the school year. The time for the activity may be inside or outside the school day or a combination of the two. Released time for participating students shall not exceed the equivalent of one school day per event.
