

RESEARCH STUDIES, SURVEYS, AND QUESTIONNAIRES

The Fullerton Joint Union High School District recognizes its responsibility to participate in research studies, surveys, and questionnaires and will promote valid and meaningful studies where possible. At the same time, the primary responsibilities of the school district are for the education of young people and the avoidance of exploitation of students, teachers, and the District. Any participation by the school district must occur in the context of these primary obligations. Requests for conducting formal studies initiated by outside individuals or organizations shall be submitted to the Superintendent or his designate in accordance with rules and regulations and procedures developed by the administration. Approval of informal campus studies planned by students or staff is delegated to the principal in accordance with rules and procedures that have been developed.
